- **JavaScript Full Stack Developer** (NIIT CERTIFIED):- Had Working Experience in JavaScript, ReactJS, Redux, NodeJS, ExpressJS, MongoDB, AngularJS.
- Also has hands on Machine Learning POC for 3 months using Python, Kafka & ML algorithms

➤ Project Engineer (INTERN), Wipro Digital, Pune (Jan 2016 to April 2016)

- Previously worked as Core Java Developer, using Java-Swing, Unix/Linux for 5 months in 2016.

Projects/ Applications :

Retail Domain USA Client Project (Product):

Description : Working for the one of the biggest Retail USA Client and European sub-clients

as Application Consultant in PSO Team, interacting with Clients on daily basis to understand, implement and enhanced the product. Have knowledge on POS, Web-apps and mobile app. Working on Confriguration for new environments setup, and Worked on Building Facade for implement features between 2 microservices and deployed on cloud(AWS) and resolving deployment issues using Kibana/Kubernetes logs.

Duration : Mar'2019 - Present

Technologies : JavaScript, HTML5, CSS3, ReactJS , Redux, NodeJS, ExpressJS/HapiJS, TypeScript, Docker, (Tools: JIRA, Confluence, Kibana, swagger, Postman), CI (Jenkins).

Role : Application Consultant(Techno-Functional role)/ JS Full stack developer

Team Size : 6

IOT Track And Trace

Description : Tracking the devices and Assets using MS Bing Maps and Geofencing, and displaying the all the details and updating them in real time.

Duration : Dec' 2018 - Feb' 2019

Technologies : Angular 7, JavaScript, HTML5, CSS3, Bootstrap, MS Bing Maps API

Role : UI Developer

Team Size : 4

➤ **IOT Microgrid/Smart-Grid**

Description : Visualising the energy Distribution and controlling it and getting real time data through RESTful API's.

Duration : Nov 2017 - Dec' 2018

Technologies : JavaScript, ReactJS, Redux, Google MapsAPI, AWS Cognito.

Role : UI Developer

Team Size : 4

➤ **Wipro Homes/Digital Internal Projects**

Description : FullStack JavaScript applications/ Building Infrastructure for Online Training and Prediction using Machine Learning algorithms.

Duration : April 2017 - Sept' 2017

Technologies : JavaScript, ReactJS, Python, Zepline, Bootstrap, Machine Learning Alogorithms, Kafka, Spark,

Role : Full Stack Developer

Team Size : 7

➤ **SAMARTH (Wipro Digital)**

Description : A SPA for Online maintaining Candidates Profile and suggesting jobs on profile Skillset also allowing recruiter to search for a candidate.

Duration : August 2016 - Feb 2017

Technologies : JavaScript, AngularJS, NodeJS, ExpressJS, MongoDB, Neo4j, Chai & Mocha

Role : JavaScript Full Stack Developer

Team Size : 6

➤ **Automation Of Travel Agency (Wipro Internship) (Jan'2016- March' 2016)**

Description : A web-based application that is build using Core Java and Java-swing to ease the

task of booking vehicle for road travelling.

Duration : Jan' 2016 - April' 2016

Technologies : CoreJava, JavaSwing, JDBC (Java Database Connectivity API).

Role : Core Java Developer

Team Size : 2

Certifications

- FullStack JavaScript Developer (MEAN Stack) from StackRoute, NIIT, 2016

Hobbies and Interests

- Playing Cricket, Badminton, Basketball, Computer games. Participating in Camping, Trekking & managing Events.

Declaration

I hereby declare that the information furnished above are factually correct to the best of my knowledge.
I am having a total professional experience of 4.5 years + 3 months of Internship.

Name: Ankit Kumar Vashist

Current Location: Bangalore
