Project Profiles

JIMMS (Jharkhand Integrated Mines and Mineral Management System)
Project description
This project aims to develop a web application for the **Department of Mines and geology, Jharkhand**
        The main objective of this web project is maintained and track the complete mines lease and dealer related activities using this application. This application helps to prevent illegal mining, theft etc.
Technology Used: Using ASP.Net, C#.NET, MS SQL Server, JavaScript, Web Api.

Role- Software development as per requirement, Unit testing of different use cases, providing support to the client and training for concerned developed module to the client.
Team Size-15

I3MS (Integrated Mines and Mineral Management System)
Project Description
This project aims to develop a web application for the **Department of Steel and Mines,Odisha**
The main objective of this web project is maintained and track the complete mines lease and dealer related activities using this application. This application helps to prevent illegal mining, theft etc.
Technology Used: Using ASP.Net, C#.NET, MS SQL Server, JavaScript.
Role- Software development as per requirement, Unit testing of different use cases, providing support to the client and training for concerned developed module to the client.
Team Size-15

KLPSIS (Kendu leaves Procurement and Storage Management System)
Project Description
This project aims to develop a web application for the **Ministry of Forest, Odisha** regarding the complete inventory, storage, procurement of kendu leaves. Odisha is one of the leading producers for kendu leaves. This portal manages the complete inventory of kendu leaves collection, binding, storage, transportation, procurement etc.
Technology Used: Using ASP.Net, VB.NET, MS SQL Server, JavaScript, Ajax toolkit, HTML, CSS.
Role- Software development as per requirement, Unit testing of different use cases, maintenance, providing support to the client and training for concerned developed module to the client.
Team Size-5

HPEFS BANK INTERFACE MODULE

This project works as an interface between HPEFS Flexi and Banks (Citi Bank etc.) for transactions. It takes data from flexi and flown into BIM. From BIM payments processed to Banks (CITI and BOA). In BIM authorize person can stop, reject or reschedule the transaction to bank.
Technology Used: Using C#.NET, ASP.Net, Sql Server, Jenkins, Tidal Jobs.
Role- Software development as per requirement, Unit testing of different use cases, maintenance, providing support to the client and training for concerned developed module to the client.

Team Size-20
Project Duration-Feb 2018 to till now.

Key Achivements

-Visited Onsite Location HPE, Liffey Park Technology Campus, Leixlip, Co. Kildare, Ireland for client interaction and requirement gathering.
-Recently recognized by SPOT Award for contributing on successful completion of FY20Q1 release.
-Managing Build for various HPEFS assets like Exstream, BIM , Pyramid , PuthThru ,CIM etc.
- AZ-900 Fundamental certification.
- Epicor Azure Fundamental certification.

Personal Details

- Name: -Ankit Kumar
- Father's Name: - Mr. Sarkar
- D.O.B: - 16/08/1991
- Gender: - Male
- PAN No.-CMCPK6537N
- Passport No.-L1962484 (Valid till 2023)
- Current Location-Bengaluru
- Permanent Address-Hno-162/163, B-Block, Line no-02, Tuiladungri, Jamshedpur-831003
- Languages known: - English, Hindi, Oriya
