AMRISH KUMAR

MOBILE: +91-8586077227, E-Mail: amrish0408@gmail.com

Summary: Experienced as Senior Software Developer with 8.7 years of successful practice in Project Enhancements, Project Development, and Maintenance. Innovative professional with proven ability to identify, analyze and solve problems through expertise in:

- Project development and Project deployment using Azure CI/CD Pipeline
- Have Basic knowledge of Snap logic cloud Integration pipeline development.
- Handling business critical applications
- Good knowledge of SDLC
- Experience in projects across various domains like Army Domain, US based Learning Services.
- Strong interpersonal skills

TECHNICAL SKILLS

- **Programming Languages:**   C#
- **Web Technology**   :   Net Core , Asp.Net MVC, ASP.NET
- **ETL**   :   SQL Server Integration Service(SSIS) ,
                                   Cloud ETL SNAPLogic Pipeline.
- **Scripting Language** :   Java Script, jQuery
- **Reporting Services** :   SQL Server Reporting Services
- **CLOUD Technology**   :   Azure Dev OPs , Azure CI/CD Pipeline
- **Code Analysis Tool** :   SonarQube
- **Data Analysis**   :   Power BI desktop version
- **Framework**   :   DOT NET 4.0,4.5,4.8, .Net Core 2.2,3.1
- **Database**   :   **SQL Server 2008,2017**
- **Application Servers** :   **IIS 6/ 7**

EDUCATION

M.C.A. (Gurukul Kangri University, Haridwar)   [2013]
B.C.A. (H.N.B. Garhwal University)   [2010]
12th (Uttarakhand Board)   [2006]
10th (Uttarakhand Board)   [2003]

PROFESSIONAL OVERVIEW

TATA CONSULTANCY SERVICES
IT Analyst (Jan 2021– Present)

CONDUENT BUSINESS SERVICES
 Senior Software Developer(Nov 2017– Dec 2020)

QuickSun Technologies PVT. Ltd.
Software Developer (May 2017 – Nov 2017)

TECH MAHINDRA (ON PAYROLL OF VCENTRIC TECHNOLOGIES)
Consultant Associate(Dec 2015 – May 2017)

ONE WORLD FOUNDATION INDIA
Jr. Software Developer (Nov 2013– Dec 2015)

PROJECT ANNEXURE

Product Name :   Pharmacy
Access   :   Private
Environment   :   Visual Studio 2017, Visual Studio 2019
Role & Responsibility : To develop Web applications, Developing SSIS packages ,Adding new features in Existing Application and deploying those applications on different env using Azure CI/CD pipeline. Also providing support and guidance to the team members.
Project Scope   :   This project is based on a web application(UI) , Integration Project and Also has a Reporting Project .This application basically processes different kinds of Data files using the different kinds of SSIS JOBS. That loads data into different tables and After that performs calculations and stores data in different tables.
Technology   :   .Net Core, C#, SSIS, SQL Server 2017, Azure CI/CD Pipeline, SNAP Logic

Product Name :   Knowledge Connection
Access   :   Private
Environment   :   Visual Studio 2019
Role & Responsibility : Senior Software Developer and responsibility includes   Development, enhancement of existing coding functionalities.
Project Scope   :   Knowledge connection is a platform through which employees can learn and update their skills, complete mandatory learning activities provided by the organizations to their employees.
Technology   :   Asp.net MVC, C#, SQL Server 2017, TFS.

Product Name :   MClass (Learning Services)
Access   **:**   Private
Environment   **:**   VS 2008

Role & Responsibility : Senior Software Developer and responsibility includes Development, enhancement of existing coding functionalities.

Project Scope : The MCLASS platform collects and tracks learning credit awards, then calculates resultant compliance based on jurisdictional-specific rules defining both yearly and multi-year period requirements for CPA professionals. Professionals can determine their eligibility for coursework and review their compliance status real-time for any jurisdiction for which they are members. Learning activities configured with CPE / CE credit awards for completion are required to have supporting documentation for total credit awards, award types, content development/delivery and revision history

Project Duration: Nov '2017-Dec 2018

Technology : Asp.net, C#, SQL Server 2008, SSRS, SSIS.

Product Name : ARPAN

Access : Private

Environment : VS 2010, SQL Server 2008 R2, MVC 4.0

Role & Responsibility : Senior Software Developer and responsibility includes Development, enhancement of existing coding functionality, Working on Database and maintaining the Database.

Project Scope : ARPAN application automates the operational functions of DSC Record Offices. This RO maintains the complete HR data of Army personnel. ARPAN deals with automation of records up to the rank of Junior Commissioned Officer (JCO).The Record Offices hold the information from the day the person joins the Army till the date of his retirement .Details maintained by Record Offices include personal details, address details, educational qualifications, family details, service records, medical history, retirement details such as pension, gratuity and after death his nominees/dependents who get the benefits.

Client : Indian Army

Product Name : Mobile-to-Web Monitoring System

Access : Private

Environment : VS 2010, MYSQL, WCF

Role & Responsibility : Software Developer and responsibility includes Development, enhancement of existing coding functionality, Working on Database and maintaining the Database.

Project Scope : A GPS-assisted mobile-based solution to gather information on sanitation behavior of rural population and measuring their access to and use of toilets in Bhopal, Madhya Pradesh. MIS show's real time data collected from the field using a Mobile app. Data shows in tabular and graphical representation using Google.

Client : MPTAST, Samarthan and WaterAid India.

Product Name : Digitization of Information for Voice based Kiosks

Access : Public

Environment : VS 2010, SQL Server 2008, WCF

Role & Responsibility : Jr. Software Developer and responsibility includes Development. Deployment of the WCF Services on staging & production Server.

Project Scope **:** An innovative ICT tool to strengthen access to legal entitlements for the poor, particularly women, SCs, STs, and minorities in the states of Chhattisgarh and Jharkhand. This included digitizing of simplified legal information and welfare schemes in user friendly formats including text, audio and animations.

Client **:** UNDP and Ministry of Justice.

Product Name **:** Lifelines Agriculture
Access **:** Public
Environment **:** VS 2010, Oracle 9i
Role & Responsibility : Jr. Software Developer and responsibility includes Development of Application, enhancement of existing coding and Working on Database and maintaining the Database.

Project Scope **:** An Interactive voice response system (IVRS) backed by a web-telephony platform that is answered by agricultural experts. In doing so, it uses ICTs for the provision of a knowledge service to end-users. Farmers record their questions related to crops, livestock, etc. Lifelines CMS is a web application used to answer these questions in audio and text form.
Client **:** CISCO.

PERSONAL DETAILS

Date of Birth **:** 4th August 1988.
Languages **:** Hindi, English.
Gender **:** Male
Marital Status **:** Married

Date: 10-July-2022

Place: Haridwar **Amrish Kumar**
